We are a White Label production company that offers an all-round service for sport and lifestyle products from the initial idea to market maturity, based in Sweden.

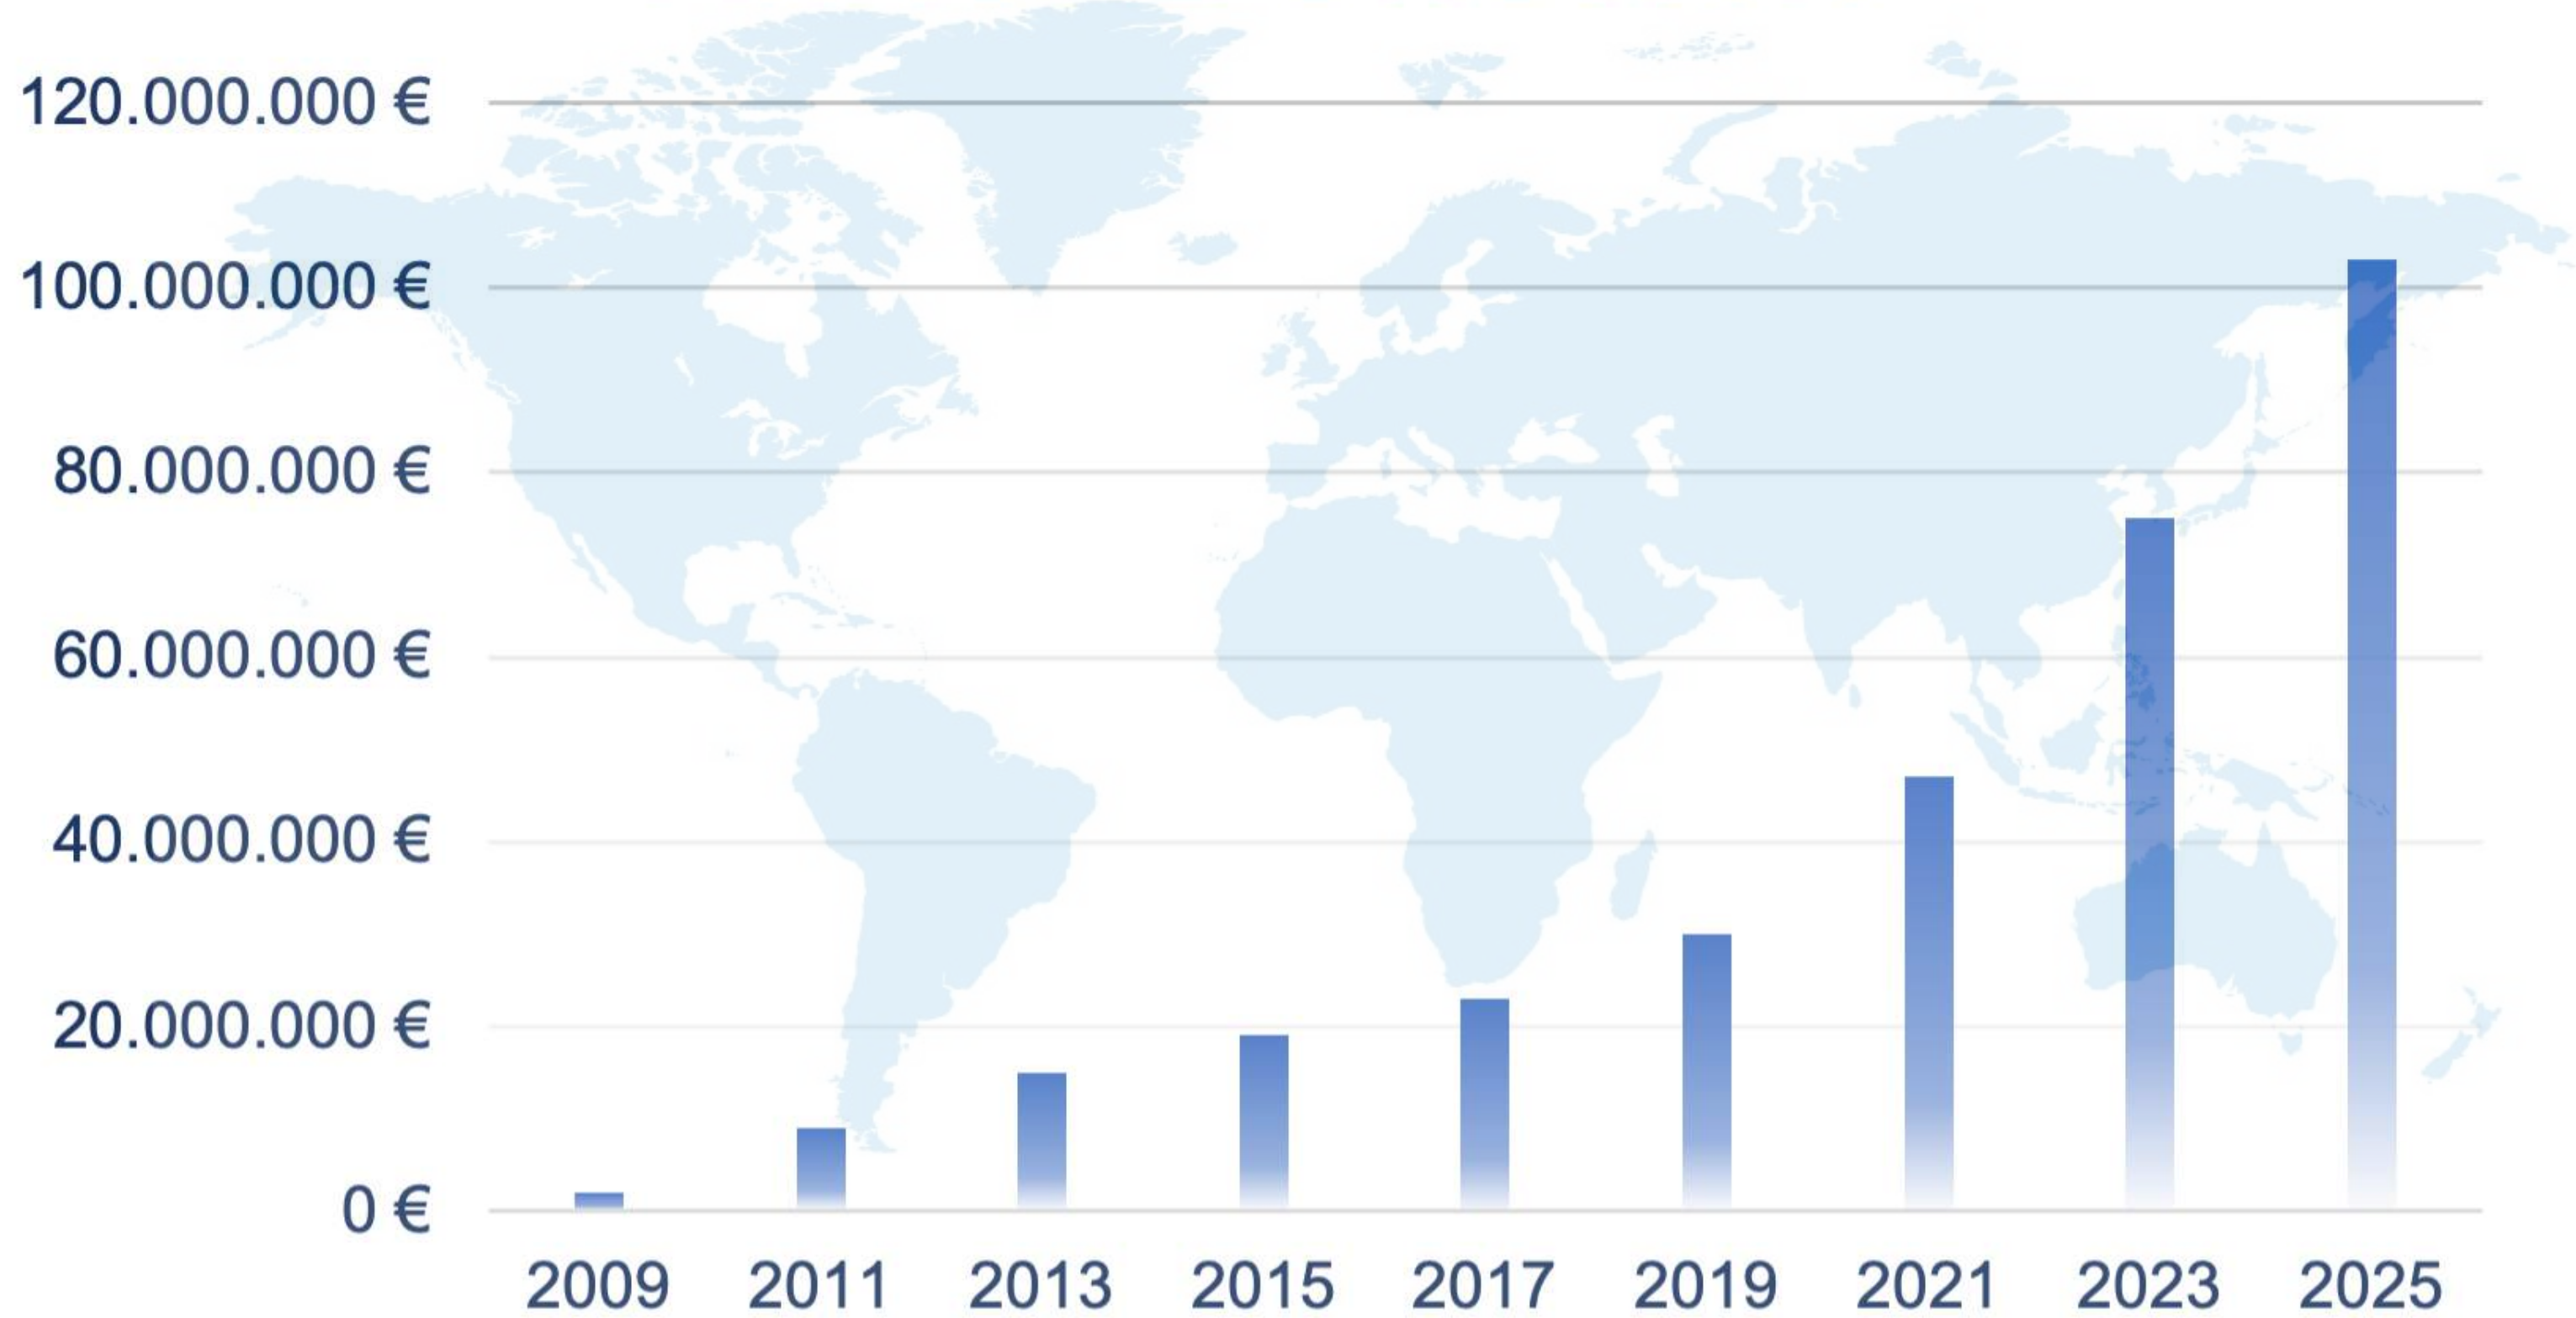

A woman with long brown hair tied back, wearing a bright blue zip-up jacket and black leggings with white stripes, is running on a paved path. She is smiling and looking towards the camera. The background is a soft-focus landscape with trees and a warm, golden light, suggesting a sunset or sunrise.

Our Journey

For over 20 years, we have been involved in bringing high-quality and reliable supplements and functional foods to the market. The purpose of our products is to improve athletic performance and overall health for every individual. All of this is done with respect for both people and the environment in which we operate.

ANNUAL GROWTH

Our business system

About Us

Our chosen business system allows us to control the entire production chain, from purchasing raw materials to their transformation, culminating in the delivery of the final product. We employ a semi-automatic production process for better quality control and flexible production to meet all our customers' needs

healthier world.

About Us

Our Objectives

13 Protein's goal is to dedicate itself to produce the best products and enhancing the entrepreneurial desires of women and men around the world, creating the best possible products to satisfy customers and interpret consumer tastes and aspirations.

Vision

Our vision is to be the leading company in the field of supplements and functional foods. We aim to be a trusted partner for our customers, offering a wide range of products and services. We strive to develop our business through both organic growth and acquisitions, ensuring a constant expansion.

Mission

At 13 Protein Import, our mission is to help our customers turn their ideas into reality by providing high-quality, customized nutritional supplements and health products. With our all-round service, we support our customers through every step of the product development process, from initial concept to finished goods.

Environmental, Social & Governance

We prioritize eco-friendly production methods, from sourcing ingredients to packaging and distribution. Our goal is to reduce our carbon footprint and create a healthier planet for all.

We believe that every idea has the potential to become a successful product, and we are committed to bringing those ideas to life. Our focus on innovation, excellence in contract manufacturing, and commitment to customer success make us a trusted partner for companies looking to make a positive impact in the health and wellness industry."

Our Commitment to Sustainability

We prioritize eco-friendly production methods, from sourcing ingredients to packaging and distribution. Our goal is to reduce our carbon footprint and create a healthier planet for all.

Our Manufacturing Process

We maintain the highest standards of quality control to ensure that our products meet the needs of our customers. From sourcing raw materials to final packaging, we adhere to strict protocols and regulations to maintain the integrity of our supplements and vitamins.

MIXWELL AB

Acquired by the 13:e Protein Import Group, 2022-05-06, MixWell is a family business started in 1999 by Carl-Gustav Hallqvist and Viveca Sylvén Kadesjö. Their dedication brought them to be one of the leading producers of gluten-free products since the late 1990s.

MixWell produces both for the consumer market and for the northern European bakery market.

Gluten Free Products

We have a diverse selection of Gluten Free Products such as: Oat Flour, Tapioca Flour, Rice Flour etc.

Flour dough

We produce multiple flour doughs such as gluten and lactose free dough that can be used to bake bread, cookies etc.

MIXWELL AB

MixWell produces great-tasting gluten-free products that are easy to use. MixWell works closely with the customers and always listens to their wishes to develop the products they desire.

Protein Mix

We produce high-quality protein mix. made from natural ingredients, with great taste.

Flour Mix

We have a great variety of Flour Mix, gluten and lactose free, such as Cookie Mix, Pizza Mix, Waffle and Pancake Mix etc.

DELEO DRYCK

Acquired by the 13:e Protein Import Group in 2023, Deleo Dryck is a prominent firm specializing in the production of PET that produces both for the consumer market and for the northern European retail market. The acquisition aims to drive innovation and expansion in the energizing beverage market. Together, the partnership will revolutionize the energy drink sector, capitalizing on 13:e Protein Import's beverage production strengths and Deleo's excellence in producing PET materials for this industry.

Products

We offer an unusually wide range of **drinks** that today spans over **200** articles with a short lead time from order to delivery.

PET

We offer PET in several different formats with great flexibility thanks to our own in-house bottle blowing.

Production

We currently deliver 16 million liters of beverages per year, and develop new flavors daily. If you want to develop a new or old product with a new taste, design or format contact us!

Business

Your success is our success. Deleo and 13:e Protein Import offer a unique partner program where we set clear and measurable goals for how we will develop our joint business together.

DELEO DRYCK

Deleo has the entire production offering under one roof, everything from developing flavors, bottle blowing to customer picking.

Their headquarters in Mälardalen with distribution points such as Rosersberg, Brunna, Eskilstuna and southern and central Stockholm, all within 10 miles, makes them unique from an economic and sustainable perspective.

Our Quality Control Standards

We ensure the highest quality standards through rigorous testing at every stage of production. From raw materials to finished products, quality is our top priority.
